

Hi Diana,

Please find below your quotation for the installation of new fascia, soffit & guttering, as discussed on your property at the birches,

Order of works to be carried out on your property:-

- Remove existing guttering
- Check existing timber for decay (splice in new timber where applicable)
- Install White solid soffit (sealing against the brickwork)
- Install Flat Brown 9mm capping fascia
- Install flat brown cladding to the side cheeks of the dormers
- Install guttering & downpipes (black half round)
- Remove all old guttering and debris from your home

The total price to have all of the above works carried out will be £28000.00 fully inclusive.

Within the price we will do the balconies as we'll have off cuts of fascia that will cover those areas.

All materials are installed to manufacturer's specification and come with a 20 year guarantee on white products and 10 years on coloured.

Also please take a look at some of our reviews on our website at [www.trustatrader.com](http://www.trustatrader.com) for a little reassurance and peace of mind for the service you will receive from us at the fascia & guttering company

I'd like to take this time to thank you for allowing us to provide you with this quotation and hopefully I've covered everything. If you do have any queries please do not hesitate to contact me and I will be happy to help.

Thank you again and hope to hear from you soon

Yours sincerely

John McDonough
